Claudio Naranjo

Claudio Naranjo is a highly unusual figure in the present landscape of psychology. A man of extraordinary culture, at once psychiatrist, passionate explorer of the human spirit and classical pianist, he has for more than 50 years combined the precise methodology of contemporary research (brain research and psychotherapy) with the heritage of ancient spiritual traditions (shamanism, buddhism, sufism).

A pioneer in the humanistic and transpersonal movement stemming from the USA's West Coast of the 60s, he embodies perfectly the spirit of synthesis in the renaissance man, in which a dynamic and harmonic balance is established between Body, Heart and Mind.

His longtime experience in the field of the personality Enneagram, in psychotherapy, meditation and the practice of music, as well as the confrontation with the present upheavals of our world, led him to create a new approach towards human personality and to the development of a gentle education in order to react to today's challenges

<p>Lecture Tuesday evening September 25th 2012</p>	<p>« Healing Civilisation »</p> <p>It is not simply a minor cultural dissonance we are experiencing in this day and age, but rather a fundamental and major crisis of our civilisation. The patriarchal model which lies at its base is etched into our social and psychological framework. It lies in the very nature of our present civilisation to smother any blossoming of a humanity that can live together in harmony.</p>  <p>Claudio Naranjo invites us to lay the foundation-stone toward a true healing of civilisation through the consideration of a fundamentally deep transformation of our educational systems.</p>	<p>Begin: 7.30 pm</p> <p>Price of admission: 20 € (Students 10 €)</p> <p>Location: Centre ISTINA 45 rue de la Glacière 75013 Paris</p> <p>Language: English with french translation</p> <p>Please make reservations: www.naranjo-sat.com</p>
<p>Workshop Wednesday, September 26th to Friday September 28th 2012</p>	<p>« Pathways to Awareness and Wisdom »</p> <p>Advanced training in the psychology of the Enneatypes and Subtypes</p> <p>Claudio Naranjo shares with the audience his story: experiences along his life's pathway, moments in meditation and above all his profound insights into the secrets of the Enneagramm of personality and the many facets of the Subtypes. We will explore together the confines of our psychological prisons and the automatisms of our "machine-existence" in order to free ourselves.</p>  <p>This workshop combines work and exchange in small groups with practical exercises towards attention and self-exploration, and reveals the possibilities of psycho-spiritual evolution through the example of the musical works of Brahms in the light of his Enneatype. These two days impart an invaluable tool for the journey along the inner pathway.</p>	<p>Times: We., Sept. 26th: 4 pm – 8 pm Th., Sept. 27th: 9 am – 1 pm and 3 pm – 7.30 pm Fr., Sept. 28th: 9 pm – 1 pm</p> <p>Workshop fees: 270 € before May 31 st, 2012 afterwards 320 €</p> <p>Location: Centre ISTINA, 45 rue de la Glacière 75013 Paris</p> <p>Language: English with french translation</p> <p>Registration: www.naranjo-sat.com</p>
